Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of Safe Passage, Camino Seguro, and Creamos which comprise the consolidated statement of financial position as of June 30, 2018, and the related consolidated statements of activities, functional expenses and cash flows for the year then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Safe Passage, Camino Seguro, and Creamos as of June 30, 2018, and the consolidated changes in their net assets and their cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Prior Period Financial Statements

The consolidated financial statements of Safe Passage, Camino Seguro, and Creamos' as of June 30, 2017 were audited by Macpage LLC, who merged with Wipfli LLP as of August 1, 2018, and whose report, dated November 7, 2017, expressed an unmodified opinion on those statements. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2017, is consistent, in all material respects, with the audited financial statements from which it has been derived.

NOTE 1 - NATURE OF THE ORGANIZATIONS AND SIGNIFICANT ACCOUNTING POLICIES

Nature of Activities

Safe Passage is a 501(c)(3) tax-exempt nonprofit corporation in the United States, and Camino Seguro and Creamos are tax-exempt nonprofit organizations registered and operating in Guatemala (hereinafter collectively called the Organization). These three entities represent a humanitarian group whose mission is "to empower the poorest, at-risk children of families working in the community of the Guatemala City garbage dump by creating opportunities and fostering dignity through the power of education." The Organization was founded in 1999 by an American school teacher, Hanley Denning.

The core activities of the Organization are operating a full-day Preschool for children ages 3 to 6 years old, an official full-day Primary School that now includes 1st through 5th grade, a full day Middle School (Basico) that by 2021 will be completed up to grade 9 and a half-day Educational Reinforcement Program for school-age students 6th grade and above (ages 10 to 21) who attend local schools. The Organization currently assists over 500 children, representing approximately 300 families, with an integrated program of support reaching the whole family. Students receive daily meals, grade-appropriate classes, financial aid for education and transportation, tutoring, health care, and enrichment through arts, sports, English language training, computers, and Saturday clubs. Additional programs in adult literacy, family nurturing, and social entrepreneurship foster a positive, stable home environment.

The Organization's programs are located in Guatemala City and centered at the Early Childhood Center, Colegio Experimental Hanley Denning and the Multi-purpose Center, all three built with donated funds. The physical plant, including classrooms, a computer lab, library, and health clinic, and administrative facilities, is well-equipped and maintained.

The Organization employs more than 95 full and part-time staff of Guatemalan teachers, social workers, and support personnel. It also maintains an additional administrative and fundraising staff of seven in the United States, located in New Gloucester, Maine. Paid staff in Guatemala work closely with international and Guatemalan volunteers who serve the Organization through commitments of varying duration. Each year, approximately 15 long-term volunteers fill teaching and operational positions and more than 310 short-term volunteers provide additional assistance.

The Organization registered its full-day pre-primary program for students ages 4, 5, and 6 years old with the Guatemalan Ministry of Education, earning recognition as an official school that was inaugurated in January 2012. The Organization opened two full-day 1st grade classrooms in January 2013, with accreditation from the Guatemalan Ministry of Education based on an active learning Montessori-based approach to learning. A full day 2nd grade was launched the following year and those students moved to a full-day 4th grade in January, 2016. Two full-day 5th grade classrooms were opened in January, 2017. With the school expanding to 6th and 7th grade respectively during the years 2018 and 2019. This extends the full-day learning program which begins at pre-k. Full-day 3rd grade classrooms and above are using an interdisciplinary curriculum called expeditionary learning that promotes hands-on experiences and critical thinking and focuses on real-world issues to provide an engaging and relevant educational experience that prepares students for jobs in the formal sector. The Ministry of Education has now accredited the Expeditionary Learning approach for use by Safe Passage in its educational programs in Guatemala. Other programs include the launch of a "next step" professional development program to support students and alumni with career preparation, jobseeking, and professional networking opportunities, formalizing a parent' committee, and further developing the women's sewing initiative to complement jewelry-making within the social entrepreneurship program.

Beneficiaries of the Organization include the children who participate in its educational and related programs, as well as the children's immediate family members. Indirectly, the surrounding community benefits from increased educational opportunities, teacher training, local jobs, and efforts to engage area youth in productive activities.

NOTE 1 – NATURE OF THE ORGANIZATIONS AND SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Nature of Activities - Continued

The Organization remains dependant on philanthropy to sustain its programs and ambitions. That philanthropy comes from Guatemala, the United States, Canada, and several European countries.

Consolidation

The accompanying consolidated financial statements include the accounts of Safe Passage, Camino Seguro, and Creamos, all of which are under common control. Material intercompany transactions and balances have been eliminated in the consolidation.

Basis of Presentation

The consolidated financial statements have been prepared on the accrual basis of accounting. The Organization is required to report information regarding its financial position and activities according to three classes of net assets, as follows:

<u>Unrestricted Net Assets</u> – Net assets that are not subject to donor imposed stipulations.

<u>Temporarily Restricted Net Assets</u> – Net assets subject to donor imposed stipulations that may or will be met either by actions of the Organization and/or the passage of time.

<u>Permanently Restricted Net Assets</u> – Net assets subject to donor imposed stipulations that they be maintained permanently by the Organization.

The Board also created a fourth designation.

<u>Board Designated Net Assets</u> – Included in the unrestricted net asset category are Board Designated funds consisting of those contributions where the donor has requested that all or part of the principal and interest earned may be spent in any year upon authorization of the Board of Directors. Other surplus unrestricted funds may be added to this fund as the Board of Directors may decide from time to time.

Comparative Consolidated Financial Statements

The consolidated financial statements include certain prior-year summarized comparative information in total, but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the Organization's consolidated financial statements for the year ended June 30, 2017, from which the summarized information was derived.

Estimates

The preparation of consolidated financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 1 – NATURE OF THE ORGANIZATIONS AND SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Contributions Receivable

Unconditional promises to give that are expected to be collected within one year are recorded as contributions receivable at net realizable value. Unconditional promises to give that are expected to be collected in future years are recorded at the present value of their estimated future cash flows. No allowance for uncollectible accounts was considered necessary as of June 30, 2018 and 2017.

Property and Equipment

Property and equipment are stated at cost or, in the case of donated property, at estimated fair value at the date of receipt. The Organization capitalizes property and equipment with at least a cost, or estimated fair value, of \$1,000, if acquired in the United States, and approximately \$100, if acquired in Guatemala. Depreciation on furniture, fixtures and equipment, and vehicles is calculated on a straight-line basis using estimated useful lives of three to eight years. Buildings and land improvements are depreciated on a straight-line basis over 10 to 20 years. Land, buildings and the majority of the vehicles, furniture, fixtures and equipment are located in Guatemala.

Investments

Investments are carried at fair value and realized and unrealized gains and losses are reflected in the statements of activities.

The Organization's investment policy and spending policy for permanently restricted endowments and board-designated investments is, as follows:

The portfolio will be managed with no less than 40% and no more than the 60% in equities or securities convertible into common stock. Debt securities with maturities greater than one year shall be at least 20% and no more than 60% of the portfolio; the remainder of the fund shall be invested in high quality cash equivalents. The current target allocation for the fund is 50% equities and 50% debt securities, including cash equivalents. Mutual funds and Exchange Traded Funds (ETFs) are permitted. Non-U.S. securities are limited to 25% of the portfolio.

Primary Investment Objective: The Permanent Endowment Fund is perpetual in nature; it must provide for long-term growth in order to create and maintain a growing stream of income to support the needs of Safe Passage over time. Specifically, the Permanent Endowment Fund seeks a long-term average annual inflation adjusted total return in excess of the spending rate adopted by the Board from time to time.

The Investment Committee will recommend the payout for the coming fiscal year to the Board of Directors in November of each year. The annual payout shall be no more than 5% of a rolling three-year average of the market value of the fund as of the last business day of September.

Inventories

Inventories consist primarily of school supplies. For 2018 and 2017 inventories have been stated at the lower of cost or net realizable value, principally using the first-in, first-out (FIFO) method. Donated items are recorded at estimated fair value at the date of donation.

NOTE 1 – NATURE OF THE ORGANIZATIONS AND SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Interpretation of Relevant Law

The Board of Directors of the Organization has interpreted the State of Maine Uniform Prudent Management Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Organization classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Organization in a manner consistent with the standard of prudence prescribed by UPMIFA. In accordance with UPMIFA, the Organization considers a number of factors in making a determination to appropriate or accumulate donor-restricted endowment funds which are designed to safeguard the principal. The Board of Directors has appropriated appreciation and earnings in excess of the spending formula to be classified as temporarily restricted funds until released by the Board of Directors.

Accrued Payroll and Severance

Guatemalan law requires each employer to provide two bonuses annually, each in the amount of one month's salary to each employee. "Bono14" must be paid by July 15, 2018, and "Aguinaldo" is paid in December, before employees leave for the Christmas holiday. In addition, Guatemalan law requires employers to provide severance to all employees who are dismissed without justification in the amount of one month's salary for each year of service. The Organization has recorded the accrued bonus and severance as of June 30, 2018 and 2017 on the consolidated statement of financial position.

Operating Activities

The Organization includes in its measure of operations all revenues and expenses that are an integral part of its programs and supporting activities and excludes contributions for non-operating purposes, such as endowments and board-designated funds, which are designated for long-term sustainability of the Organization, contributions and expenses for capital campaign, and realized and unrealized gains and losses on investments.

Non-Operating Activities

Non-operating activities consist of contributions for non-operating purposes, such as endowments and board-designated funds, which are designated for long-term sustainability of the Organization. In addition, non-operating activities include contributions and expenses for capital campaign, as well as realized and unrealized gains and losses on investments and other assets.

Contributions

All contributions are considered to be available for unrestricted use, unless specifically restricted by the donor. Support that is restricted by the donor is reported as an increase in unrestricted net assets if the restriction expires in the reporting period in which the support is recognized. All other amounts received that are designated for future periods or restricted by the donor for specific purposes are reported as increases in temporarily or permanently restricted net assets, depending on the nature of the restrictions. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the consolidated statement of activities as net assets released after satisfaction of restrictions.

NOTE 1 – NATURE OF THE ORGANIZATIONS AND SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Contributed Services

The Organization receives a substantial amount of services donated by volunteers in carrying out the Organization's programs. Donated services supporting the education and social work programs that met the recognition criteria amounted to \$41,869 and \$74,004 for the years ended 2018 and 2017, respectively, and are included in the consolidated statement of activities.

Donated Food, Supplies and Materials

Each year, certain food, supplies and materials have been donated in-kind to the Organization. The estimated fair value of these materials has been reflected in the accompanying consolidated financial statements as contributions with a like amount included in program and supporting services expenses.

Functional Expenses

The costs of providing the various programs and other activities have been summarized on a functional basis in the consolidated statement of activities. Accordingly, certain costs have been allocated among the programs and supporting services.

Foreign Currency Translation

The Guatemalan quetzal is the functional currency for the Organization's programs. All amounts in these consolidated financial statements are reflected in U.S. dollars. All financial position accounts have been translated using an exchange rate representative of the exchange rate in effect at the financial position dates. The foreign currency translation adjustment is recorded in the consolidated statement of activities. The approximate accumulated foreign currency translation adjustments amounted to \$11,953 and \$(2,138) at June 30, 2018 and 2017, respectively.

Income Taxes

Safe Passage is exempt from federal income taxes under Section 501(c)(3) of the U.S. Internal Revenue Code, while Camino Seguro and Creamos are exempt from income taxes in Guatemala.

Management has evaluated the Organization's tax positions and concluded that, as of June 30, 2018 and 2017, the Organization does not believe that it has taken any tax positions that would require the recording of any additional tax liabilities, nor does it believe that there are any unrealized tax benefits that would either increase or decrease within the next 12 months. The Organization is currently open to audit under the statute of limitations by the Internal Revenue Service and state taxing authorities for the years ended December 31, 2015 through June 30, 2018.

Consolidated Statements of Cash Flows

For purposes of the consolidated statements of cash flows, the Organization considers all highly liquid debt instruments purchased with an initial maturity of three months or less to be cash equivalents. Money market funds, held as a portion of the Organization's endowment portfolio, are classified as investments for purposes of the consolidated statements of cash flows.

NOTE 1 – NATURE OF THE ORGANIZATIONS AND SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In determining fair value, the Organization uses various methods, including market, income and cost approaches. Based on these approaches, the Organization often utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and or the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated, or generally unobservable inputs. The Organization utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Based on the observability of the inputs used in the valuation techniques, the Organization is required to provide the following information according to the fair value hierarchy. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

- Level 1 Quoted prices for identical assets and liabilities traded in active exchange markets, such as the New York Stock Exchange.
- Level 2 Observable inputs other than Level 1 including quoted prices for similar assets or liabilities, quoted prices in less active markets, or other observable inputs that can be corroborated by observable market data.
- Level 3 Unobservable inputs supported by little or no market activity for financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair values requires significant management judgment or estimation.

For the years ended 2018 and 2017, the application of valuation techniques applied to similar assets and liabilities has been consistent. The following is a description of the valuation methodologies used for instruments measured at fair value:

Investment Securities

The fair value of investment securities is the market value based on quoted market prices, when available, or market prices provided by recognized broker dealers.

Recent Accounting Pronouncements

Leasing

In February 2016, FASB issued ASU 2016-02, Leases. This new standard will provide users of the consolidated financial statements a more accurate picture of the assets and the long-term financial obligations of entities that lease. The proposal is for a dual-model approach; a lessee would account for most existing capital leases as Type A leases, and most existing operating leases as Type B leases. Both would be reported on the consolidated balance sheet of the entity. For nonpublic companies, the new leasing standard would apply for fiscal years beginning after December 15, 2019. The standard requires retroactive application to previously issued consolidated financial statements for 2019 and 2018, if presented. Management is currently evaluating the impact of adoption on its consolidated financial statements.

Revenue Recognition

In May 2014, the FASB issued ASU 2014-09, *Revenue from Contracts with Customers*, to clarify the principles for recognizing revenue and to develop a common revenue standard for U.S. GAAP and International Financial Reporting Standard (IFRS). The core principle of the guidance requires entities to recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The guidance is effective for all nonpublic entities' annual periods beginning after December 15, 2018. Management is currently evaluating the impact of adoption on its consolidated financial statements.

Not-for-Profit Entities

In August 2016, the FASB issued ASU 2016-14, *Not-for-Profit Entities: Presentation of Financial Statements of Not-for-Profit Entities,* to amend current reporting requirements to make several improvements, including reducing complexities of information presented within Not-for-Profit financial statements. A main provision of this update is that a Not-for-Profit entity will report two classes of net assets (amounts for net assets with donor restrictions and net assets without donor restrictions), rather than the currently required three classes. The guidance is effective for annual periods beginning after December 15, 2017, with early application permitted. This standard requires retroactive application to previously issued financial statements for 2018 and 2017, if presented. Management is currently evaluating the impact of adoption on its consolidated financial statements.

NOTE 2 – CASH AND CASH EQUIVALENTS

The Organization maintains its cash in bank deposit accounts located in the United States and Guatemala. Cash maintained in accounts located in the United States, at times, may exceed federally insured limits. The Organization has not experienced any losses in such accounts. Cash maintained in accounts located in Guatemala is insured up to approximately \$2,500. The Organization believes it is not exposed to any significant credit risk from cash and cash equivalents.

Capital Campaign

In 2005, the Organization received from Rellenos de Guatemala S.A. the right to use for free a piece of land on which the day care center, operational offices, the warehouse, an in-door gym, an out-door basketball/soccer court are built on. The same donor offered a second property, right next to the entrance of the dump. The land and buildings are getting used by Camino Seguro as an academic support and external certification program for Basico and Diversificado students, Adult Education, tutoring, mentoring, sports and Saturday activities and by Creamos. The donor of the land is in the process to formally transfer the deed title of the land to the Organization once all licenses and approvals are obtained. The school building that came with the land was used as the base of the building. The Organization also received three structures from Telus International S.A. with an estimated contribution of \$155,000 that was recorded in the building account as of June 2016.

The Board directed that a building project be carried out to construct a multipurpose center – developed with the offer of help from Telus on donated land next to the entrance of the dump; *Primary School* – Future projects will include air handling and internal space renovation at the Multipurpose Center, that project was completed in 2017. Future projects will include a new playground and expansion of multi-use facilities next to the Colegio Experimental Hanley Denning, constructed on land purchased through a large donation. Finally, a future Basico Building is being considered and would located on previously purchased land next door to its present administrative and medical facility located in close proximity to its existing three educational centers for Pre-K to 7th Grade. The next phase is contingent upon funds received.

NOTE 8 – RELATED PARTY TRANSACTIONS

The Organization received a land and a building described in a Note 7 Commitments and Contingencies – Capital Campaign from one of the Board of Directors in November 2015. Estimated value of land and building of \$110,000 and \$40,000 is recorded in the land and buildings accounts, respectively.
